TOURIST PASMO IC Card for International Visitors Available Soon!
～ Stylish Design Decorated with Kanji Characters ～

Transportation IC card company PASMO Co., Ltd., is pleased to announce the release of TOURIST PASMO for international visitors to Japan. This new card will be available at train stations and other locations near airports with international flights starting May 2026.

This IC card was inspired by PASMO PASSPORT, the previous card for international visitors which was available until 2024. It is only available to tourists from overseas on short-term visits and has an expiration date.

The design features kanji characters, which are popular even overseas, symbolizing the global phenomenon of cool Asian culture. The character for "travel" is at the center, with other characters related to travel and sightseeing surrounding it in a stylish font and design, making it the perfect souvenir of a trip to Japan.

Just like the usual PASMO, this card can be used on all trains and buses that accept IC cards for fare payment and for cashless payments at participating stores. You can keep using it during your stay by adding value.

Visit the website for more details on TOURIST PASMO.
